Profile

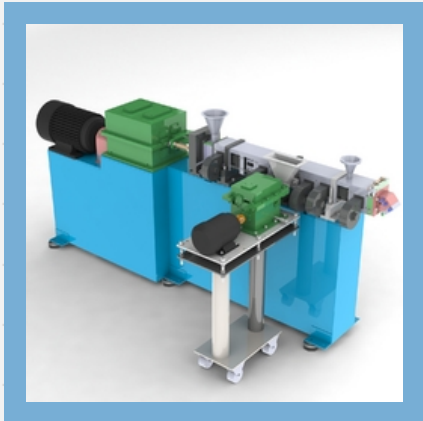

Established in **1995**, we, “**Flytech Engineering**” are an eminent manufacturer, supplier and exporter of **Extrusion Machines & Equipment**. Our products are distinguished for their efficient processing of bulk material with a speed of **1000 kg/hr**. Our range is manufactured using quality stainless steel making it non-corrosive and durable boasting sturdy construction. Clients can avail from us customized products to suit their requirements. Further, we ensure that international standards are observed while producing the range. We are a preferred supplier and exporter, who strictly comply to client-centric and ethical business policies. Moreover, we entertain client suggestion to keep ourselves updated with the market trends. Modern software like Solid Edge and Solid Works are used to design our qualitative range. We have an advanced production unit located in Chennai, Tamil Nadu, where all these products are manufactured under strict quality controls. We have hired able professionals, who work in sync with one another in different departments to deliver these products within the specified time. We make use of roadways to safely deliver our machinery and equipment.
