

Count on us to deliver the best

Advanced solutions for Quality Paper Cones & Tubes

s Engineering Works

PATTERN CUTTING MACHINE

Purpose : Paper reel feeding, onside edge grinding and cutting pattern to any suitable size for Textile Cone 5.57, 4.20, 3.30 & 9.15.

Production : 35 patterns / minute.

Power required : 3 HP

Labour required : 1 person

SEMI AUTOMATIC PAPER CONE WINDING MACHINE (GADI TYPE)

Purpose : Manual feeding and ejection by pneumatic system, suitable for all types of cone manufacturing.

Production : 23 cones / minute.

Power required : 1.5 HP

Labour required : 3 persons

PAPER SLITTING MACHINE

Purpose : To slit paper reel of any width from 1" onwards.

Power required : 3 HP

Labour required : 1 person

GLUING TANK

Purpose : Glue applying on the paper.

Power required : 2 HP + 6 kW Heater

SPIRAL PAPER TUBE WINDING MACHINE

Purpose : Making Spiral type paper tube.

Production : 5 feet to 40 feet/minute. (Depending upon the tube thickness, the length of production varies)

Power required : Depending upon the capacity power varies

Labour required : 2 persons

The Maadan's Engineeri

PAPER CONE PRINTING MACHINE

Purpose : Cone top side & bottom side printing. Manual cone feeding and ejection by a stripper mechanism.

Production : 23 cones / minute.

Power required : 0.5 HP

Labour required : 2 persons

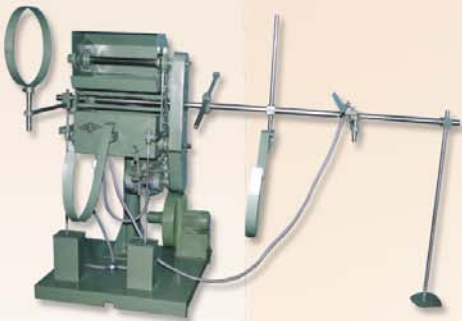

PAPER CONE NOSING MACHINE

Purpose : Cone top side nosing and bottom cutting. Suitable for 9.15, 4.20, mini 3.30 and 5.57 cone.

Production : 23 cones / minute.

Power required : 2.5 HP

Labour required : 2 persons

AUTO PAPER TUBE ROUGH CUTTER MACHINE

Purpose : Tube rough cutting any length

Power required : 2 HP + 0.5 HP dust collecting blower.

PNEUMATIC TYPE PAPER TUBE TRIM CUTTING MACHINE

Purpose : Paper tube cutting of any width (tube cutting by pneumatic system. Tube feeding and ejection by manual).

Power required : Depending upon the capacity power various

Labour required : 1 person

LABELLING MACHINE

Purpose : Semi automatic type labelling on composite tube

Power required : 1 HP

Labour required : 2 persons

The Maadan's

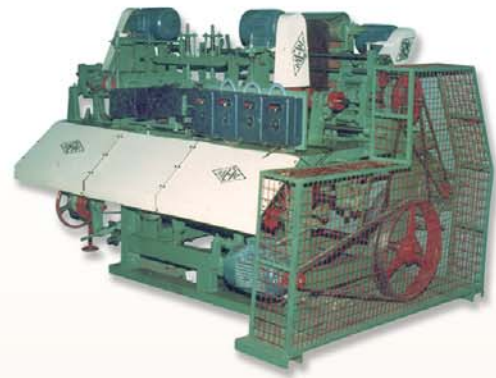

TURRET TYPE PAPER CONE VELVETTING MACHINE

Purpose : Cone velveting and bottom single grooving & moon shape punching. Suitable for 9.15, 4.20, mini 3.30 and 5.57 cone.

Production : 23 cones / minute.

Power required : 2.5 HP

Labour required : 2 persons

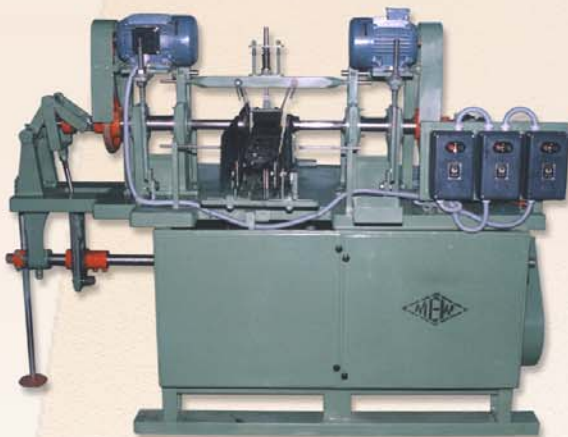

APR PAPER CONE FINISHING MACHINE

Purpose : Cone nosing, bottom burnishing, moon shape punching, bottom side single grooving and velveting.

Production : 23 cones / minute.

Power required : 6.5 HP

Labour required : 2 persons

APR TUBE NOSING MACHINE

Purpose : Tube nosing and bottom burnishing.

Power required : 5 HP

Labour required : 1 person

AUTOMATIC PAPER CONE WINDING MACHINE

Purpose : Paper reel feeding with automatic cone production with automatic pattern feeding by automatic system and cone ejection by pneumatic system.

Production : 23 cones / minute.

Power : 12.5 HP

Labour : 2 persons
