You know it's the purest oil, because you extract it. Effortlessly!

Introducing Rajkumar

KITCHEN MODEL OIL EXPELLER

For over 50 years one name has stood for excellence and innovation - RAJKUMAR AGRO ENGINEERS.

After the huge success of its manually operated domestic oil expeller both in the domestic as well as global markets, it realized the huge potential demand for a motor-driven model, given the time-constrained and convenience oriented modern life. The result is an electrically operated domestic oil expeller that works only mechanically. That means no chemicals or solvents- therefore 100% pure oil.

It is virtually impossible to get pure oils in the market today as almost all modern extraction technology involves chemicals & solvents. Rajkumar Oil Expeller is the only one you can conveniently use and see 100% pure oil pouring out with your own eyes.

Get good health now. Get the Rajkumar Kitchen Model Oil Expeller. NOW!

Technical Parameters:
