DREAM SPACE
ARCHITECTS AND
INTERIOR DESIGNERS

About Us

We are a team of architects and interior designers practicing in Delhi and NCR since 2009. We offer services like architectural and interior design, structural design, landscape design, green building design and building automation. At present we are working on both residential and commercial projects. We take projects on consultancy as well as on turnkey basis.

Our design approach is modern and contemporary. We believe in creating simple useful spaces which interact with its users and maintain the balance. We believe in team work to produce new and innovative designs which meets client requirement and are specific to the needs of the project.

In addition to this we also focus on eco-friendly and sustainable architecture. We encourage our clients to go for energy and water saving techniques in their projects during the design phase itself.

We pay strong emphasis during the design phase of the project, as we believe a well planned project gets well executed and meet its goal.
