

ABLP Forged Precision Bearing Castors with MCNY Series Cast Polyamide Wheels

Muvtons MCNY Wheels produced from high impact resistant cast polyamide are the ultimate choice for extremely high loads where metallic wheels are not an option. These wheels possess very high abrasion resistance and offer low rolling resistance under extreme loads. Can be used in corrosive applications. Wheel Bearing Options : Sealed precision ball bearings, tapered roller bearings or plain bore. Temperature range : -30° C to +80° C.
